**Disc Film**

**All 15 images cropped rotated and colour restored**

**Scanned at 4800 dpi**

**Entire film £13.50**

All images individually cropped and rotated

**Custom made glass mounted film.**

These are bespoke custom made glass mounted film similar size to standard slides but much wider. They consist of two pieces of glass with the film between them and the edges taped with masking or similar tape. These are not classified as standard mounted slides and do not fit in our scanning rig. However we can scan them using our high resolution flatbed scanner however this take much longer and they are charged at a different rate.

**Video**

Early 2000's some camcorders recorded to a mini DVD, we can convert these to either standard DVD or HD-AVI file for your computer/Tablet.

If your disc is not displaying any data and you know it has definitely been recorded on we can almost certainly still recover the video footage - Just select the **+Recovery** option below

**£9.50**

## **Audio Cassette**

Audio cassette to CD or MP3

Priced per tape

Both sides included

**£8.50**

## **Sony MiniDisc**

### **Audio**

MiniDisc was announced by Sony in September 1992 and released in November of that year for sale in Japan and in December in Europe, Canada, the USA and other countries.<sup>[2]</sup> The music format was originally based on ATRAC audio data compression, but the option of linear PCM digital recording was later introduced to attain audio quality comparable to that of a compact disc. MiniDiscs were very popular in Japan and found moderate success in Europe.<sup>[3]</sup>

Sony has ceased development of MD devices, with the last of the players sold by March 2013.<sup>[4]</sup>

We convert your MiniDisc to either Audio CD  
or MP3 File

**£8.50**

### **Cinefilm 8mm or Super 8**

Silent 8mm Cinefilm to HD MP4 File  
and DVD

Direct from film to digital

**No audio**

**3" Reel £14.50**

**5" Reel £19.50**

**7" Reel £38.50**

Posting  
information
